

# Allan Gray Australia Equity Fund (Class B)

FUND FACT SHEET 30 SEPTEMBER 2024

ALLAN GRAY  
CONTRARIAN INVESTING

Using Allan Gray's contrarian investment philosophy, the Fund seeks to provide a long-term return that exceeds the S&P/ASX 300 Accumulation Index (Benchmark).

## Investment approach

We believe that investing in undervalued shares and securities identified through fundamental research offers the potential for solid long-term returns. The Fund aims to be fully invested in Australian listed equities at all times with no more than 10% in cash. Returns from the Fund can be volatile, particularly over the short and medium term.

In implementing the Fund's strategy, Allan Gray adheres to detailed investment restrictions and limits, as set out in the Fund's Product Disclosure Statement and accompanying Information Booklet (together, the PDS).

The Fund offers you a choice in fee structures. This fact sheet relates to Class B which only charges a performance fee. You can choose to pay a base fee and smaller performance fee with Class A.
